Hi Don,

Here is an album for you (for your great kindness), a promo kit with CD for the Down Home, and Johnny Cash & Bob tape. There was a ton of room on side 2, so I filled it up with some live stuff I thought you would like. It didn't seem (from your e-mail) that you had a lot of tapes and/or boots, so I thought I'd just make some choices. All of this extra stuff came from a great four CD box set called You Don't Know Me that is as well put together if not better than anything Sony has done. Anyway, if you already have this, for us Bob fans a 2nd copy is always nice.

I also included for your perusal an article that appeared in the *Philadelphia Inquirer* a few years ago that will tell you some things about me. This was written before the album came out as you will see.

Anyway, please take the promo kit to either the club or your Phil Leonard. I sent them almost the exact same thing almost a year ago. So either the post office or someone misplaced it because it never came back here.

Once again, I truly appreciate your help in this matter.

I hope you enjoy this stuff and see you on RMD.
